

Activity of the Week

Strange Matter- The Transformer! -In this activity, you get to transform or change matter into different things by heating them, beating them, or by chemically treating them. Find out what happens when we take the raw materials of **silicon**, **iron**, and **carbon** and put them through the transformer!

Your first name:

Your last name:

What happens when we **heat** and **beat** carbon?

- It turns into coal.
- It turns into a diamond.
- It turns into plastic (polyethylene).

What happens when we **beat** and **treat** carbon?

- It turns into coal.
- It turns into a diamond.
- It turns into plastic (polyethylene).

What happens when we **heat** and **treat** carbon?

- It turns into coal.
- It turns into a diamond.
- It turns into plastic (polyethylene).
