

# Activity of the Week

**Who Wants to Live a Million Years?** -Why do giraffes have long necks? Why do polar bears have thick fur? In this activity, you will learn about Charles Darwin's theory of natural selection. After doing so, play the Survival Game and see if you can survive for a million years!

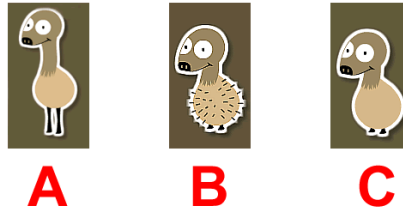

First name:

Last name:

Circle the best answer for each question:

1) Which variation might best survive in a really cold climate?

2) Which variation might best survive in an environment with fierce and fast predators?

3) What was the name of the ship that Darwin served as a naturalist aboard from 1831-1836?  
HINT: Be sure to play the quiz game to correctly answer this question!

- The Indefatigable
- The Bugle
- The Sloop John B
- The Beagle
