

Activity of the Week

Juice Bottle Jingles -Did you enjoy making our musical instruments in science lab using water, plastic stirrers and beakers? This activity also allows you to create music using bottles with different amounts of water in them. They even give you the written music to perform different songs!

Your first name:

Your last name:

What is pitch?

- How loud or soft a sound is.
- How high or low a sound is.
- How clear or muffled a sound is.

What is volume?

- How loud or soft a sound is.
- How high or low a sound is.
- How clear or muffled a sound is.

What happens to the sound when we add more water to our glass beakers?

- The pitch gets higher.
- The pitch gets lower.

Tapping the glass beakers harder would....

- Raise the pitch of the sound
- Increase the volume of the sound
